Re Service by the Montreal Street Railway Company was read "Montreal Street Railway Co., Montreal, 24th March 1894, I. C. McCormick Esq., Chairman of Street Railway Com., Cote St. Antoine.

Dear Sir: I have been considering the question of giving a more frequent service from Cote St. Antoine down to the heart of the city, by adding on a Bleury St. route, and I could arrange for you at present in the following manner so as to give you a 4-9min service from both St. Antoine to Notre Dame St. between McGill St. and St. Lambert's Hill. If you would not require our St. Catherine St. main route to run farther than Greene Avenue we could give you 8 cars, via Windsor St. and 8 cars via Bleury St., making both of these routes run round your belt, and give you by this means a 2-9min. Service from your municipality to the centre of the city. By the Bleury St. route, we could also haul trailers which would be a considerable advantage in increasing the carrying capacity, and we would run these cars by Greene Avenue, and west on Sherbrooke St., the Windsor cars going west on St. Catherine St. and down Greene Avenue. Your suburb would thus be connected with the heart of the City.
27th March 1894

City by a 4.30min service, while at the same
time you would have the regular service
on St Catherine St. from Greene Avenue to
Shelbaya, and we would, of course, continue
to give transfer tickets from the Blount or
Indiana service to the St Catherine St
route, or vice versa.

Though this service would take some more
cars than we are running at present yet I
think we will be able to do it for you and
I think it will give you a more satisfactory
service than you are having at present.

Yours truly (signed) Granville C. Cunningham
