

Construction Notice

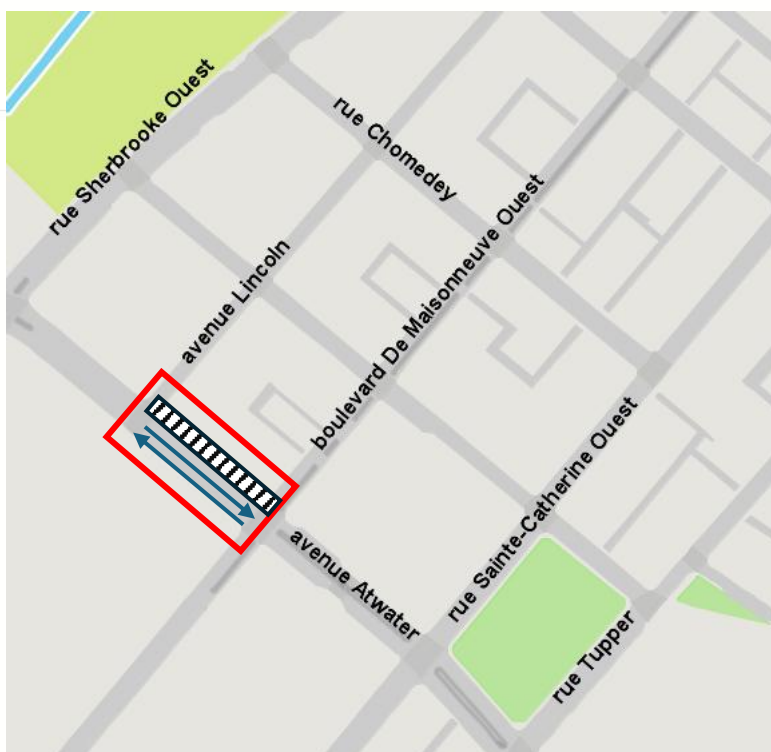

Beginning: Week of June 29, 2026

Estimated end: July 10, 2026

Reconstruction work on a water main

On Avenue Atwater between Boulevard De Maisonneuve Ouest and Avenue Lincoln

Vehicular traffic and parking

Avenue Atwater:

- Full closure of east side lanes between Boulevard De Maisonneuve Ouest and Avenue Lincoln.
- Contraflow traffic in the west side lane. At least one traffic lane accessible in each direction on Avenue Atwater at all times.
- Police presence to help ensure the flow of traffic.
- Thank you for complying with the onsite signage.

-  : Worksite
-  : Closure northbound
-  : Two traffic lanes

IMPORTANT

Three other work phases will be required during the summer on Avenue Atwater between:

- Boulevard René-Lévesque Ouest and Rue Sainte-Catherine Ouest
- Rue Saint-Jacques Ouest and Rue Notre-Dame Ouest
- Rue Saint-Antoine and Boulevard René-Lévesque Ouest

A detailed construction notice will be sent out for each of these phases.

The work schedule is aimed at optimizing worksite management as well as minimizing and reducing the duration of obstructions.

The construction work may be postponed or extended due to weather conditions and other circumstances.

Parking and mobility

- **Parking:** Restrictions in effect within worksite boundaries and on certain cross streets to allow for two-way configuration.
- **Active transportation:** Detours and alternate configurations for pedestrians and cyclists.
- **Public transportation:** Services maintained, but some stops and schedules may change. The Atwater metro station will remain accessible at all times.
Information: STM-INFO (514-786-4636 or at [stm.info](https://www.stm.info)).

Worksite information

- **Access to buildings:**
 - Access on foot to residences, businesses and institutions is maintained at all times.
 - Delivery and drop-off zones may be configured temporarily, as needed.
 - A liaison agent will coordinate with businesses and institutions to minimize the impact on their operations.

- **Signalling crews:** Onsite for the duration of construction work for road safety.
- **Work schedule:** Monday to Friday from 7 a.m. to 5 p.m.

- **Garbage, recycling and composting within the worksite perimeter:** On collection days, place your bins in their usual location, ensuring that your address is written visibly on them. Bins that are not accessible to collection crews will be relocated by the contractor.
- If you use mobility assistance devices such as strollers, crutches, mobility scooters, etc. or if you are planning to move or carry out work on your property, or for any other situation that the worksite manager should know about, please contact 514-872-3777.

Responsible water use

Summer is the time of the year when demand for water is at its highest. It is essential that all residents reduce their consumption of drinking water.

See how you can contribute by typing “**Water consumption: Tips for reducing waste**” at montreal.ca
